Revolutionary Power
Dynaglide
from Hall Stage

Dynaglide is a solid and reliable approach to winch operation - at a price that won't wind you up! Three models offer the convenience and choice of manual or power operation, with safe working loads to 1000Kg, Dynaglide provides an excellent option in any application.

- MULTI LOAD - choice of 3 load capacities
- DUAL LIMITS - operational and ultimate
- SELF SUSTAINING - plus additional brake for DGV
- MINIMAL MAINTENANCE - all bearings sealed and self lubricating
- FLEXIBLE - can be configured for 2 - 6 line operation
- SAFE - full CE/BS compliance
- WARRANTIED - three year return to base
